

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

wood materials
metal fittings
small fittings made from recyclable plastic

1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

wood material certified by PEFC and TSCA Title VI / CARB2
fittings from producer with ISO 50001-Certification
furniture standardized with the GS mark of the LGA QualiTest GmbH, RAL-certified "Made in Germany" and AMK

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

The furniture consists of 85% wood materials and 15% metal and plastic.

1.5. How high is the proportion of renewable raw materials in your product as a %.

80%

1.6. What % of your raw materials used are recycled materials?

95%

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

./.

2.1. Where do you produce your product? (please specify also several production locations) country of the head office in **2.2. Is the production operation certified? If yes, in accordance with which one?****2.3. How do you grade production energy consumption?** low normal high**2.4. What energy source is used for production?** 0 % of power from renewable energy**2.5. What % of renewable energy comes from in-house production?** 0 % of the electricity comes from renewable, self-generated energies**2.6. The production waste is**for % returned to the production cyclefor 40 % recycledfor % broken down organically (organic waste)for % thermally recycled (residual waste)for % professionally disposed of as specialist wastefor 60 % thermal utilisation in production**2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?** No water is used in the production process.**2.8. Where required, additional comments about how you obtain energy or dispose of waste** Wood residues and chips are partly thermally recycled or returned to the cycle for reuse.

3 | PACKAGING

3.1. What type of packaging do you use?

- disposable packaging reusable packaging both disposable and reusable
 we do not package

3.2. Your packaging material for this product is comprised of

0 % from renewable materials 100 % from recycled material
% from

3.3. Type and material, packaging description

97% Cardboard boxes, paper or cardboard
3 % shrink wrap or strapping

3.4. Your packaging material is produced in

- country of the head office same continent where the product is produced
 intercontinental

3.5. Where required, additional comments about your packaging

A waste disposal contract number TV000131 has been signed with the company RKT Recycling Kontor Transportverpackungen GmbH & Co. KG. This ensures that all the packaging materials concerned are processed correctly and that all the requirements of the Packaging Directive are met.

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

- directly via wholesale trade (online & stationary)
 via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

Own, fuel-saving fleet with the latest lorries and our own employees.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

on lifetime hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

please read Ballerina-instructions for use and care

<https://www.ballerina-kitchens.eu/brochures-and-films/downloads>

5.4. Where required, additional comments about the life cycle of the product

The furniture can be assembled and disassembled multiple times.

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

Yes No

partly, namely

6.2. If so, where, for example?

./.

6.3. How can it otherwise be disposed?

return to manufacturer or dealer

organic waste

recycling centre

thermal recycling

residual waste

specialist waste

6.4. Where required, additional comments about disposal and recycling

./.

7 | MISCELLANEOUS
