

Sustainability Statement

1.1. What components or raw materials do you work with?	
wood materials metal fittings smal fittings made from recyclable plastic	
.2. Where do you source the individual components or raw materials from?	
From the country of production of this product	
From the continent where we produce this product worldwide	
3. Are the raw materials or components certified or approved according to standards? If so, which ones?	
wood material certified by PEFC and TSCA Title VI / CARB2 fittings from producer with ISO 50001-Certification furniture standardized with the GS mark of the LGA QualiTest GmbH, RAL-certified "Made in Germandy" and AM	K
4. Please clarify the material structure of the final product as well as the material composition expressed in %.	
The furniture consists of 85% wood materials and 15% metal and plastic.	
5. How high is the proportion of renewable raw materials in your product as a %.	
80%	
6. What % of your raw materials used are recycled materials?	
95%	
7. Where required, additional comments about where you obtain your raw materials	
from and their origin:	
J.	

2.1. Where	do you produce your product? (please specify also several production locations)				
⊠ cou	ntry of the head office				
in					
2.2. Is the p	roduction operation certified? If yes, in accordance with which one?				
.J.					
2.3. How do	you grade production energy consumption?				
low	⊠ normal ☐ high				
2.4. What e	nergy source is used for production?				
0 %	6 of power from renewable energy				
2.5. What %	of renewable energy comes from in-house production?				
0 %	of the electricity comes from renewable, self-generated energies				
2.6. The pro	oduction waste is				
for	% returned to the production cycle				
for 40	% recycled				
for	% broken down organically (organic waste)				
for	% thermically recycled (residual waste)				
for	% professionally disposed of as specialist waste				
for 60	% thermal utilisation in production				
2.7. What a	re you doing to treat the water used in production or to reduce your "Water Footprint"?				
No water	is used in the production process.				
No water	to used in the production process.				
29 Where	required additional comments about how you obtain energy or dispose of waste				
_	required, additional comments about how you obtain energy or dispose of waste				
Wood res	Wood residues and chips are partly thermally recycled or returned to the cycle for reuse.				

PRODUCTION

3	PACI	KAGING				
	3.1.	What type of packaging do you use?				
		✓ disposable packaging				
		we do not package				
	3.2. Your packaging material for this product is comprised of					
		% from renewable materials 100 % from recycled material				
		% from				
	3.3.	Type and material, packaging description				
		97% Cardboard boxes, paper or cardboard 3 % shrink wrap or strapping				
	3.4.	Your packaging material is produced in				
		☐ country of the head office ☐ same continent where the product is produced ☐ intercontinental				
	3.5.	equired, additional comments about your packaging				
	A waste disposal contract number TV000131 has been signed with the company RKT Recycling Kontor Transportverpackungen GmbH & Co. KG. This ensures that all the packaging materials concerned are processed correctly and that all the requirements of the Packaging Directive are met.					
4	WAP	EHOUSING AND LOGISTICS				
7	WAII	ENGOSINA AND EGAISTICS				
	4.1.	You produce this product				
		as quickly available warehouse goods				
	4.2.	You distribute your product (multiple answers possible)				
		☐ directly ☐ via wholesale trade (online & stationary)				
	4.3.	Where required, additional comments about your Green Logistic				
		Own, fuel-saving fleet with the latest lorries and our own employees.				

With proper de	aily use, your product lasts about					
on lifetime	hours/months/years (operational)					
. How does the	How does the product keep its appearance when used at this frequency?					
The product:						
shows traces of use and/or a nice patina						
shows a few traces of use, generally not for a while						
=	er less traces of use, stays almost unaltered					
is a consum	nable and regularly replaced (e.g. candle, soap etc.)					
. What is there t	to say about care/maintenance?					
please read Baller	rina-instructions for use and care					
https://www.balleri	ina-kitchens.eu/brochures-and-films/downloads					
. Where require	d, additional comments about the life cycle of the product					
The furniture can b	be assembled and disassembled multiple times.					
	·					
POSAL AND REC	YCLING
